

Series HSL C Strip QUIK LED

Standard Strip Channel Fixture

X1 / EI ≈ >76

Strip Channel: 2', 4', 8'

FIXTURE DESCRIPTION

The HSL C Strip Channel is a medium body 4.25" strip for interior warehouse, retail and utility areas that require general illumination and flexible mounting options. Using X1/QUIK LED T8 Lamps in this strip fixture offers the best light output, energy savings and a low cost of operation. This fixture can be installed as a single unit or in continuous runs. Since this T8 LED Bypass fixture series doesn't require any ballast or driver the only component that will ever need changing is the LED T8 lamp. The lamps are warranted for five years. Unlike strip fixtures that utilize LED arrays and drivers, these fixtures have the flexibility to change wattage, lumens and color temperature simply by changing the lamps without the need to call a licensed electrician.

X1 LED / QUIK LED

The most economical, practical and user friendly series of LED fixtures offering energy savings, quality of light, and long life. With no ballast to manage, X1LED/Quik LED creates a new fixture with hassle-free maintenance. X1 LED fixtures are UL Listed with the latest LED T8 Bypass lamps. This system offers the maximum flexibility and as T8 LED Lamp Technology continues to improve simply change the lamp to achieve additional energy savings. Simple, Easy & Long Lasting!

CONSTRUCTION

Housing is die-formed and embossed code 22 gauge steel. Finish is high reflectance baked white enamel. Wiring knockouts are provided on back and end of housing. Ballast covers or reflectors attach without tools to simplify ballast access. See IND Series for similar fixtures with reflectors.

- Single unit length and tandem fixtures available in most lamp styles
- End plate doubles as coupler for continuous row mounts
- See IND Series for similar fixtures with reflectors

LAMP

1 or 2 lamp positions

MOUNTING

Surface mount, chain hung, double stem

ELECTRICAL

Meets UL 1598 for continuous row mounting and comes with provision for a coupling method

The Simple LED Solution

All the Benefits of LED with Ease, Practicality and Flexibility
